Comment. As late as mid-September, the two barracks installations were much more heavily occupied by component units of the 7th Gds Necz Div. Since already at that time units of the division were stationed in Berlin, while other elements of it were assumed to have been rotated to Lieberose, the present report indicates that the units from Fuerstenwalde conducted exercises in the vicinity of their posts and that these exercises were not yet completed on 15 October. Palmnicken is north of Fuerstenwalde, Langewahl southeast of this town. The observation of a rocket launcher at the barracks installation on Braunsdorfer Strasse cannot be commented upon.		8.
